I usually don’t go ahead and put a beat up so quickly, but this time, I promise you it is worth it. While I was sifting through some Royalty Free Sample CDs....I found a chilling sound and built a crazy beat off of it. This is really dark, but still borderline club, and still underground at the same time. Don’t know what to tell you except listen to it.

It’s a Monster!

Sometimes as a beat maker you do stupid things, just to see how they would sound....like reversing a piano for no reason, or chopping up a vocal line from a previous song of yours....don’t know why I did it, or why it works, but it do.

Listen to this beat....for the harder heads, just cut out the rhodes and it stays heavy...or smooth it out with rhodes.

I know it sound stupid to say that the customer is wrong, but sometimes they are. The wrong customers give you the run around, got bad credit, etc...the kind of people you rarely want to do business, unfortunately they also the type of people that you usually need to do business with all the time. This is a story telling type beat, and very emotional. Hope you enjoy it.

Surrender is a dark East Coast beat, epic even. The electric guitar is crazy, as are the pianos and the strings. Classic boomrap with some dark synths to boot. My goodness, with the right emcee, this beat is a classic!

So I was on some rock fusion with some dirty south drums, almost reminiscent of some "Party Like a Rockstar" beats. I just needed to get it out. This beat is bananas! Has a crazy rock guitar, dark dirty south organs, a serious boom bap, it move like nobody's business. I need someone to murder this track and do it justice, because a wack emcee makes wack songs: this beat is too good for that.

This Beat is Sold and is No Longer Available for Purchase or Leasing!

I can't stand yes men. The people that just tell you what you want to hear regardless of how true it is. This dirty south beat came about because I was getting frustrated dealing with the people I was dealing with. It's a dark beat, with a haunting piano line and choirs in the background and epic brass on the chorus. Get this

one today b/c I don't know how long it will last: someone is going to cop this exclusively!

Sold!

This is one of my favorite beats of all time. The problem with making your own beats is that sometimes you become a beat hoarder, saving the best for yourself. This is one of the dopest storytelling beats I've ever heard. Really jazzy, just let loose!

OK, so here it is, the first beat uploaded since the site relaunch. I really dig this one too! The brass on this is crazy, its a really dark beat to keep your interest, and underground enough, but with just enough of the bounce to make it a contender.
